OB Nurse Skills Fellowship

Program Details

The purpose of this continuing education activity is to enhance the obstetric clinical competence of nurses by strengthening foundational assessment skills through the use of simulation and models, and by advancing evidence-based nursing management of patients experiencing complications during pregnancy, labor, delivery, and the postpartum period. This activity is designed to improve clinical judgment, early recognition of maternal deterioration, and timely intervention to promote safe maternal and neonatal outcomes.

Key Points:

- Common obstetric assessment skills and assessments utilizing models and simulation
- Nursing care of the patient who experiences complications of pregnancy within the labor, delivery and postpartum areas
