### Handouts

To access the handouts, please  
refer to your course registration  
emails, or the course.

### Details

Join us for this continuing education activity designed to enhance healthcare professionals' knowledge of current research and evidence-based guidelines to support clinical and professional practice in pulmonary care. Symposium topics will include diagnosis and treatment options for obstructive sleep apnea, current management strategies and treatment updates for pulmonary hypertension, emerging research and clinical considerations for patients with Long COVID, and an overview of organ donation principles, including applicable regulations, donor registration distinctions, and clinical differences between brain-dead and donation after circulatory death donors.
