Advanced NICU Fellowship: Integrative Approaches to Neonatal Fluid and Electrolyte Management, Lab Interpretation, and Cardiac Care (Day 1)

Program Details

The purpose of this course is to provide knowledge related to caring for preterm infants in the NICU setting. Topics include Neonatal Fluid and Electrolyte Management, Interpreting Neonatal Labs, and cardiac care.

Key Points:

- Management of hypotension in the extreme preterm infant
- Management of the infant during intensive procedures such as exchange transfusions and whole body cooling
- Values for common neonatal lab tests
- Management of common fluid and electrolyte imbalances
- Assessment of neonatal infections
